1. Platform Overview

CreditDataWatch is India's pioneering Business Credit Management ecosystem. It enables suppliers and buyers to formally validate their trades through a mutual transaction acknowledgment system.

Core Services

- Report Overdue Payer — List and expose payment defaulters on a national platform
- Credit Management — Track and manage all credit transactions digitally
- Partners Credit Overdue Report — Generate and access Credit Information Reports (CIR)
- Finalization Steps — Tools to settle dues and close payment disputes

Who Can Use CreditDataWatch?

- GST-registered businesses and MSMEs across India
- Suppliers who extend credit to buyers
- Buyers who want to establish and protect their credit reputation

2. Getting Started — Registration & Login

Prerequisites

- Valid GSTIN (GST Registration Number) — mandatory
- Business email address
- Mobile number for OTP verification

Registration Steps

1. Go to the CreditDataWatch website and click Login/Register
2. Enter your GSTIN — this is verified before account creation
3. Fill in your business name, email, and mobile number
4. Verify your mobile via OTP
5. Set your password and complete registration
6. Purchase a Membership plan to activate full features

Important

GST registration is a mandatory prerequisite for accessing CreditDataWatch services.

Access is restricted to GST-registered entities only.

3. Membership Plans

CreditDataWatch offers four membership tiers. All plan details are configurable by the Admin.

Plan	Details
Base — ₹500	Validity: 1 Month | CIR Fee: Not included | Legal Assistance: Yes | Reminders: Included
Royal — ₹1,000	Validity: 6 Months | CIR: 5 Incidents | Legal Assistance: Yes | Follow-ups: Yes
Groups — ₹2,000	Validity: 1 Year | CIR: 20 Incidents | Legal Assistance: Yes | Follow-ups: Yes
Enterprise — ₹1,00,000	Validity: 1 Year | CIR: 100 Incidents | Legal Assistance: Yes | Follow-ups: Yes

Note: Membership plans and pricing are configurable by the Master Admin from the Admin Panel.

4. How to Add a Purchase Order (PO)

Steps to Add a New PO

7. Log in to your CreditDataWatch dashboard
8. On the Dashboard, locate the 'Open POs' section
9. Click 'Add PO' on the right side panel
10. Fill in all required fields:

- PO Number — unique identifier for the purchase order
- Vendor Name — name of the vendor/supplier
- Vendor GSTIN — GST number of the vendor
- Vendor Email ID — for sending reminders
- Vendor Mobile Number — for SMS reminders
- Amount — total PO value in INR
- Due Date — payment due date
- Status — Open, Pending, or Closed
- Document URL — optional link to PO document

11. Click 'Save PO' to add the record

Importing Multiple POs via CSV

12. Click 'Import CSV' button on the Open POs section
13. Download the CSV template using the 'Download Template' button next to Add PO
14. Fill in the template with your PO data
15. Upload the completed CSV file

Managing Existing POs

- Edit a PO — click the pencil (edit) icon in the Actions column
- Delete/Archive — click the delete icon in the Actions column
- Send Reminder — click the reminder icon to send a payment reminder to the vendor
- View Details — click the view icon to see full PO details
- Mark as Paid — click the checkmark icon to mark a PO as paid

PO Status Guide
Open — PO is active, payment not yet received
Pending — PO is under review or partially processed
Paid — Payment has been received and confirmed
Overdue — Payment due date has passed without payment
Closed — PO has been closed/archived

5. How Payment Reminders Work

Automated Reminders

CreditDataWatch automatically sends payment reminders to vendors based on the schedule configured by the Admin. Reminders are sent via email.

Manual Reminder (Per PO)

16. Go to the Open POs table on the Dashboard
17. Find the PO you want to send a reminder for
18. Click the reminder icon in the Actions column
19. A preview modal will open showing the email content pre-filled with:
- {vendor_name} — replaced with actual vendor name
- {amount} — replaced with actual PO amount
- {due_date} — replaced with actual due date
- {po_number} — replaced with actual PO number
20. Review and edit the Subject Line and Email Body if needed
21. Choose 'Send Now' to send immediately, or 'Schedule for later' to pick a date and time
22. Click 'Send Reminder' — a confirmation toast will appear

Note
Reminders cannot be sent to POs with status 'Paid'.

The reminder icon will appear greyed out for Paid POs.
Email templates are configured by the Admin in Admin Panel > Reminders.

6. Credibility Index & Score

The Credibility Index is CreditDataWatch's proprietary scoring system that evaluates the financial reliability of a business based on its payment history and transaction behavior.

How the Score is Calculated

- Payment punctuality — how often payments are made on or before due date
- Outstanding dues — number and value of unresolved defaulted transactions
- Settlement history — whether past defaults were eventually settled
- CreditDataWatch member reports — number of businesses that have reported the entity as a defaulter

Viewing the Credibility Index

23. Click 'Credibility Index' in the top navigation bar
24. Search for a company by name or GSTIN
25. Click on a company to open the Detail View
26. Click 'Generate Credit Report' to generate 5 AI-powered report cards:

- Executive Credit Summary
- Payment Track Record
- Risk Classification
- Credit Advisory
- Credit Facility Recommendation

7. What Credit Grades Mean

Grade	Meaning & Recommended Action
A — Excellent	Low risk. Business has strong payment history. Safe to extend credit.
B — Good	Moderate reliability. Minor delays in past. Proceed with standard credit terms.
C — Average	Some payment issues recorded. Exercise caution. Consider shorter credit terms.

D — Poor	High risk. Multiple defaults recorded. Avoid extending credit or require advance payment.

7B. Performance Star Rating System

CreditDataWatch uses a 5-star Performance Rating to indicate how reliably a business fulfills its Purchase Orders on time. This rating is calculated automatically from the company's actual PO payment data.

Star Rating Criteria

Star Rating	PO Payment Performance
★★★★★ **5 Stars**	90% to 100% of POs paid on time — Excellent reliability
★★★★☆ **4 Stars**	75% to 89% of POs paid on time — Good reliability
★★★☆☆ **3 Stars**	60% to 74% of POs paid on time — Average reliability
★★☆☆☆ **2 Stars**	40% to 59% of POs paid on time — Below average, exercise caution
★☆☆☆☆ **1 Star**	Below 40% of POs paid on time — Poor reliability, high risk

How Star Rating is Calculated

- Total POs for the company are counted from the system
- POs with status 'Paid' on or before the due date are counted as paid on time
- Percentage = (Paid on time POs / Total POs) x 100
- The percentage is matched to the star rating table above
- Star rating updates automatically whenever a new PO is added or status changes

Using Star Rating to Make Business Decisions

- 5 Stars — Safe to extend full credit. Highly reliable partner.
- 4 Stars — Good partner. Standard credit terms are appropriate.
- 3 Stars — Proceed with caution. Consider shorter payment terms.
- 2 Stars — High caution. Request advance payment or reduced credit limits.
- 1 Star — Do not extend credit. Require full advance payment before supplying.

8. How to Use the Wallet

The CreditDataWatch Wallet manages your account balance for purchasing services such as Credit Information Reports (CIR).

Accessing the Wallet

27. Click 'Wallet' in the top navigation bar
28. View your current balance and transaction history

Adding Funds

29. Click 'Add Funds' or 'Recharge'
30. Enter the amount you wish to add
31. Complete payment through the official CreditDataWatch payment portal (Preflex Solutions Pvt Ltd)
32. Balance will reflect immediately after successful payment

Security Warning
IMPORTANT: Only make payments through the official CreditDataWatch portal.
Do NOT make payments to any personal accounts. We have received reports of unauthorized individuals impersonating Preflex Solutions Pvt Ltd.
Always verify Account Number and Account Holder's Name before processing any payment.

9. Reporting a Payment Defaulter

Who Can Report?

Any GST-registered member of CreditDataWatch can report a payment defaulter. Reporting is 100% FREE for all registered members.

Steps to Report a Defaulter

33. Log in to your CreditDataWatch account
34. Navigate to 'Report Overdue Payer' from the Services menu
35. Fill in the required information about the defaulting business:
- Business name and GSTIN (or PAN if no GSTIN)
- Outstanding amount
- Transaction details and dates
36. Upload supporting documents:
- Updated ledger of the defaulter

- Chartered Accountant (CA) certificate with UDIN number
- Any other documents requested by CreditDataWatch

37. Submit the report — CreditDataWatch team verifies within 2 working days
38. Once verified, the defaulter is listed on the national platform

After Reporting

- The defaulter is exposed across India on the CreditDataWatch defaulters list
- Other registered members can see the defaulter's credit report
- The defaulter's credibility score decreases
- If the defaulter settles the payment, you can choose to update or remove their listing

10. Finalization & Payment Settlement

Settlement Process

39. Spot the Defaulter — Add the non-paying client to CreditDataWatch's defaulters list
40. Negotiate — You and the defaulter agree on repayment terms (full payment or installments)
41. Receive Payment — Confirm payment has been received
42. Update Status — Log into CreditDataWatch and mark the dispute as settled
43. Optional — Request removal of the defaulter's name from the list

Note: CreditDataWatch does not interfere in negotiations. Settlement is strictly between the reporting member and the defaulter. It is the reporting member's sole discretion to remove a defaulter's name after settlement.

Transparency Policy
Even after settlement, the defaulter's history remains visible on CreditDataWatch.
This promotes accountability and helps other businesses make informed decisions.
The defaulter's rating stops decreasing once settlement is recorded.

11. Company Rules for Vendor Payments

- All vendor payments must be tracked through CreditDataWatch Purchase Orders
- A new PO must be created for every credit transaction with a vendor
- Payment due dates must be accurately recorded at the time of PO creation

- Vendors must be notified via CreditDataWatch reminders — not just informal communication
- PO status must be updated immediately when payment is received
- Any vendor with overdue status for more than 30 days must be escalated for defaulter reporting
- All vendor GSTINs must be verified before onboarding
- Admin must review the Open POs dashboard weekly for overdue accounts

12. What Happens When a Vendor Defaults

Stage	Action
1 — Overdue detected	System automatically marks PO as Overdue when due date passes
2 — Automated reminder	CreditDataWatch sends automated email reminder to vendor
3 — Manual reminder	Admin sends manual reminder with edited email content via the reminder icon
4 — Scheduled follow-up	Admin schedules follow-up reminders at regular intervals
5 — Escalation	If no response after configured days, Admin initiates defaulter report
6 — Report filed	Defaulter listed on CreditDataWatch national platform, credibility score drops
7 — Settlement	If vendor pays, Admin updates status and optionally removes from defaulter list

13. Admin Panel Guide

Accessing the Admin Panel

- Only Master Admin accounts can access the Admin Panel
- Admin Panel bypasses all subscription checks
- URL: /admin (login with Master Admin credentials)

Admin Panel Sections

- Dashboard — Overview of platform activity, users, and POs
- Users — Manage all registered users and their subscriptions

- Membership Plans — Configure plan pricing, validity, and features
- Reminders — Configure automated reminder schedules and email templates
- Email Templates — Set Subject Line and Email Body for reminder emails

Configuring Reminder Schedules

44. Go to Admin Panel > Reminders (/admin/reminders)
45. Set how many days before/after due date reminders are sent
46. Enable or disable 'Reminders After Due Date' toggle
47. Configure the Custom Email Content section:
    - Subject Line — e.g., 'Payment Reminder: {po_number}'
    - Email Body — using variables {vendor_name}, {amount}, {due_date}, {po_number}
48. Click 'Preview Email' to see how the email will look with sample data
49. Click 'Save Changes' to apply settings

14. Frequently Asked Questions

What is CreditDataWatch?

CreditDataWatch is India's Business Credit Management ecosystem that enables suppliers and buyers to validate trades, report defaulters, manage payments, and access credit intelligence reports.

Who can register on CreditDataWatch?

Any GST-registered business or MSME in India can register. A valid GSTIN is mandatory.

How long does defaulter verification take?

Typically up to 2 working days after all required documents are submitted.

Can a defaulter's name be removed after settlement?

Yes, but only at the discretion of the reporting member. The history remains visible for transparency even after removal.

Is reporting a defaulter free?

Yes. Reporting a defaulter is completely free for all registered members of CreditDataWatch.

What if the defaulter does not have a GSTIN?

In this case, the defaulter can be reported using their PAN number instead.

What is a Credit Information Report (CIR)?

A CIR is a detailed report prepared by CreditDataWatch showing a business's payment history, defaulter status, credit score, and financial dealings. It helps members make informed decisions before entering business deals.
